

AgFiniti – Ag Leader's Cloud-Based Platform

Info Ag 2015 – St. Louis, MO

Luke James - Software Sales Manager

Interconnectivity

Being connected makes farming more efficient by providing decision-making information when and where you need it. AgFiniti connects you to your data in the field, in the office, from your tablet or even your smartphone. AgFiniti helps you gain more control over your downtime. Reducing troubleshooting time and increasing the time spent on the task at hand increases your operation's efficiency.

Data Security

- Securely stored in the cloud
- Data is controlled and owned by the customer
 - Automated sharing options
 - Optional additional account users
- Data is not mined or sold

Flexible Setup

- Bring your own 'hotspot' concept
- Select best cellular carrier
- Utilize existing data plan
- Utilize 4G/LTE speeds
- Simple initial setup
- No wires, cables or modems
- Easily move from one machine to another

Efficient Data Transfer

- Ag Leader display files - .agsetup, .agdata
- Ag Leader Smart Reports

Simple Data Sharing

- Customer owns and controls the data and has the ability to share with trusted advisors
 - Automated data sharing
 - Manual data sharing
